To whom it may concern!

Econova AlpineRallye is postponed to spring next year!

At ECONova we have decided to postpone ECONova AlpineRallye to next year. Reason for such actions is an exceptionally low interest for cooperation at FIA, as we received only one and half entry for participation at the event!

The second reason is, that competitors from Slovenia did not get starting permit from the national association for this event. Without a starting permit of the national association AMF (Austrian Motorsport Federation) cannot grant licences D that are needed to participate at FIA Electric and New Energy Cup.

Competitors from Slovenia would be discriminated, which is something we cannot accept at ECONova.

Our focus will be devoted to organisation of ECONova Steiermark Rallye, taking place from 6th to 8th of October in Graz.

It will be organised in any case, while we hope FIA will be able to manage problems with licences.

Best regards!

Primož Lemež
